Hi Kevin,

As discussed on the phone, our Purchasing group needs to have the amount of your bill for your New 6 reclamation work and the amount that I calculate (based on your reported hours and cooperative contract costs) to be equal down to the dollar. The difference between your bill and my calculation is \$31 (~0.2% of the total). See the attached calculations.

If you agree with the calculations attached, please return a signed copy to me, and we will get the check prepared. Feel free to let me know if you see anything that is amiss.

Peter

Hi Kevin,

I noticed a small error in my previous calculation. I didn't calculate the end dump hours at the transport rate, as specified in your most recent bill. See the revised calculation, which makes the difference between our numbers \$49 the other direction (we owe you a little more than most recently specified). Please sign and send this revised copy in.

That's all. Thanks.

Peter
